PROFESSIONAL SUMMARY

A highly motivated and detail-oriented individual with a strong foundation in computer science and programming. Possesses strong communication and teamwork abilities to collaborate effectively on projects. Dedicated to delivering high-quality results with efficiency and creativity.Seeking an opportunity to contribute to organizational growth while advancing professional expertise.

EDUCATION

VET Institute of Arts and Science (Co-Education) College, Thindal, Erode 2024 - 2027

B.Sc. Computer Science and Applications

Status: Undergraduate (UG) | CGPA: 85.43

SKILLS

HTML, CSS, JavaScript, C, C++,java

PROJECTS

Employee Salary Prediction

- Project Link — Developed an Employee Salary Prediction web application in July 2025 to analyze historical and current employee data and predict salary outcomes for different job roles.

INTERNSHIP EXPERIENCE

Q-Gate Infotech Private Limited — Non-IT Role Jun 09, 2025 - Jul 08, 2025

- Used QGIS to manage customer requirements, coordinate with cross-functional teams, resolve requests and develop professional skills in office communication and teamwork.

Dataglobal Technologies — Blockchain and Cybersecurity Aug 12, 2025 - Sep 01, 2025

- Worked with Debian Linux, including installation, networking and blockchain fundamentals.
  Applied cryptographic techniques as part of blockchain and cybersecurity coursework.

ACHIEVEMENTS

Smart India Hackathon – Second Prize (UG Semester-1) 2024-2025

Won second prize for developing an innovative Vegetable Price Prediction project that uses data analysis and machine learning to forecast market prices.

CERTIFICATES

Cyber Security Analyst:

Knowledge of cybersecurity principles, threat analysis, vulnerability assessment and security practices.

Python for Data Science and AI:

Learned Python fundamentals and their application in data analysis, visualization, and AI.

GitHub Copilot : Learned AI-assisted coding, code generation, debugging and development workflow support using GitHub Copilot.

Data Science:

Gained knowledge of data analysis, data preprocessing, visualization and basic machine learning concepts.

Java Programming:

Learned Java programming fundamentals, object-oriented programming and basic application development.
